

## RMS Training Options

RMS Training is conducted by our Support and Training staff that have extensive knowledge of RMS and experience. Our training sessions are tailored to your needs and can be provided for individuals or groups.

We offer three training models:

### **Remote Training:**

Using emulation programs we can connect to your RMS system and train across the internet, so both trainer and your staff is seeing your data. A telephone connection is used for two way discussion. This form of training is most suitable for one person.

Cost: \$ 95.00 plus GST for each 60 minute session

### **Training @ RMS**

Up to 8 people at our Nerang (Qld) office

or 6 people at our Tullamarine (Vic) office.

Cost: \$350.00 plus GST per Half Day  
\$650.00 plus GST per Full Day

### **On site Training**

Our trainer will visit your site, conduct training and review your RMS operation.

We strongly recommend a place away from the front desk and cover for staff being trained as an uninterrupted session will give much better results.

Cost: \$750.00 plus GST per day plus travel costs and accommodation (if not provided on site)

To discuss your training needs and to book training please contact Rachel at RMS on (03) 9335 1588, then choose option 5 or by email [trainingcoordinator@rms-global.com](mailto:trainingcoordinator@rms-global.com)
